

“Don’t let the hidden costs of storing and analyzing your test data sink you!
Dive deep in to your test results and see what’s really happening!”

Test systems are just the tip of the iceberg.

Your ability to manage and make sense of the data that is generated is critical to delivering on-budget, on-time, and with confidence!

Verifide provides an out-of-the-box solution that works with your existing test software:

- ⇒ Eliminate manual labor in analyzing and selling off units.
- ⇒ Reduce down-time with faster troubleshooting.
- ⇒ Prevent catastrophic failures with better insight into data and trends.
- ⇒ Avoid costs of developing and maintaining home-grown code.
- ⇒ Fine tune your processes with the power of metrics.
